ADMISSION.

The student must be twelve years of age for admission to the Preparatory classes, and fourteen for admission to the Freshman Class.

In all cases satisfactory testimonials of good character must be given; and of students coming from another College a certificate of regular dismission is required.

We prefer that those who intend to graduate at this Institution should enter the Freshman Class at least, if not our Preparatory School, rather than prepare themselves elsewhere for an advanced standing.

Students coming from other Colleges are examined and receive their grade by the judgment of the Faculty.

Candidates for admission to the Freshman Class must sustain an examination in the books prescribed in our Preparatory Course; or, if they come from other schools, where different authors are read, in that which shall be deemed an equivalent to this Course.

I. Candidates for admission to the Freshman Class of the Classical Course, must sustain an examination in the following studies:

1. *Greek.*—Harkness' First Book; Anabasis, one book; Hadley's Greek Grammar.

General Information.

THEOLOGICAL DEPARTMENT.

The Board of Trustees, at the session in 1866, established two chairs in the Theological Department of the University. Of these, one (the Chrisman-Professorship of Biblical Theology and Literature) has been filled, and instruction is now given in the studies of the first year. The endowment of the second chair (the Morris-Professorship of Systematic and Pastoral Theology) has been fully secured; and the endowment of a third chair nearly completed. It is expected that a full Faculty will be appointed by 1868; when a complete course of study will be prescribed, and the usual classes of a Theological Seminary organized.

HIGHER CHEMISTRY.

During the year a Department of Analytical Chemistry has been opened, and students are supplied with the necessary apparatus and chemicals for completing a full course of Qualitative and Quantitative Analysis. The student performs all operations under the immediate supervision of the Instructor, and keeps full notes of the work done. After the revision of these notes, the student puts them in permanent form, and at the close of the course, submits them for final inspection. All the chemical formulæ and equations are written in chemical symbols, and particular attention is paid to working out all the reactions that take place during the operations. The design of the Department is to enable the student to acquire a practical knowledge of the laws and operations of chemistry, and skill in chemical manipulations. The end sought is not so much the study of Analytical Chemistry as the study of *general* Chemistry analytically. A moderate fee is charged for instruction, and chemicals are furnished at the usual prices.

Text-books and Manuals of reference are: Fresenius' Qualitative Analysis; Douglass' Tables; Brande and Taylor's Chemistry; Conington's Hand-Book of Chemical Analysis; Miller's Chemistry; Watt's Chemical Dictionary; Fresenius' Quantitative Analysis; Elderhorst on the Blowpipe; Muspratt and Plattner's Blowpipe Analysis.

MODERN LANGUAGES.

In the Department of Modern Languages special effort is made to render the instruction practical. As the student advances, the languages themselves are made the medium of communication between the Professor and the pupil.

ELECTIVE STUDIES.

All the studies of the Freshman Year are required. In the Sophomore, Junior, and Senior Years certain studies are marked *Elective;* of which each student must take one, in addition to the required studies of the term.

LECTURES.

I. By the President:

During the First Term, to the Freshman Class, on College Life and Studies.

During the Second Term, to the Junior Class, on Natural Theology.

During the Third Term, to the Senior Class, on the History of Philosophy.

II. In the Classical Department occasional lectures are given on the authors read; and, during the Senior Year, a course of lectures on Philology and Ancient Literature.

III. In the Departments of Mathematics and Mechanical Philosophy, a course of lectures is given during the first term of the Senior Year on the Philosophy of Mathematics and the History of Physics.

IV. In the departments of Chemistry and Natural History the subjects taught are illustrated by lectures.

RELIGIOUS INSTRUCTION.

Morning worship is held in the College Chapel at the opening of the exercises, each day of the week except Sunday.

On Sabbath morning all the students are required to attend public worship at such Church as the Faculty understand to be preferred by the parents or guardians, and in the afternoon, at three o'clock, at the College Chapel.

A students' prayer meeting is held every Saturday night in one of the lecture rooms of the University; and, at nine o'clock on Sabbath morning, Bible classes are taught by members of the Faculty, at which all have the privilege of attending.

MUSEUM, LIBRARIES, AND APPARATUS.

The Institution is furnished with extensive apparatus for illustration in the Departments of Natural Philosophy, Mechanics, and Chemistry.

The Prescott Cabinet contains a very large collection of preparations and specimens in the several Departments of Natural History.

The Mann Geological Cabinet contains a large and well-arranged collection, especially of specimens in Paleontology.

The contribution to the Cabinet by Rev. Charles H. Warren, M. A., of the Ohio Conference, contains specimens of wood (216 species) and grasses (259 species) native to the State of Ohio.

The Arboretum, a collection commenced on the College grounds some years since by Rev. Joseph H. Creighton, M. A., of the Ohio Conference, embraces many hundred specimens, and is designed to include every tree, native and foreign, that will grow in this latitude.

The Sturges Library, to which additions are constantly making, now contains	7,845	Vols.
The Ohio Methodist Historical Society Library contains	136	"
The Society Libraries contain	3,500	"

GOVERNMENT.

A daily account is kept of each student, in such a way as to afford a full exhibit of his habits in regard to regularity and punctuality in his duties, as well as the merit of his recitations in his several studies. This exhibit is read publicly at the close of the term, and a copy sent, when desired, to the parents or guardians of each student.

Uninterrupted residence is required during Term time. Graded students, absent for whatever cause, are liable to degradation. Leave of absence is granted only in extreme cases.

EXAMINATIONS.

THERE is a public examination at the close of each term, in all the studies pursued during the term. The examination is rigid and impartial; and in no case is a student suffered to advance, unless it is evident to the Faculty and Examining Committee that, by diligent and successful application, he has entitled himself to such promotion.

GRADUATION.

DEGREES in the Arts are conferred *in cursu* only on those who go through the entire Classical Course. The degree of Bachelor of Science is conferred on those who complete the Scientific Course of Study.

Bachelors of Arts of three or more years' standing, who have maintained a good moral character, are eligible to the degree of Master of Arts *in cursu* on payment in advance of the usual fee of five dollars. Application must be made to the Secretary three weeks before Commencement.

EXPENSES AND PAYMENTS.

TUITION in the Collegiate Department, per year	$30 00
Tuition in the Preparatory Department	20 00

The regular text-books can be had in the place.

Scholarships can be purchased at the University at about six dollars a year.
